## STATE CONVENTION.

Republican Will Meet at Greenwood Springs.

EL PASO - AS 24 DELEGATES.

A Convention of Over Five Hundred to Assemble on September 29-30-31 at Greenwood Springs for the purpose of electing delegates to the State Convention.

Denver, Sept. 5.-The Republican state central committee met in this city today and decided upon Greenwood Springs as the place for holding the state convention and Sept. 29 as the time.

Each county will have two delegates-at-large and one delegate to each 100 votes and fraction of 50 or more, east for Townsend at the election.

This will make more than 500 delegates to the convention.

Notes.-The vote cast for Townsend in El Paso county at the last election was 2,671. This will give twenty-four delegates to the state convention from this county.

## A Border Town.

WASHINGTON, Sept. 5.-A peculiar state of affairs exists in Nogales, Ariz., which is situated partly in the United States and partly in Mexico. By simply crossing the street persons are upon Mexican soil. Custom officers report to the treasury department that American citizens cross the line in this way, say clothing on the Mexican side, put it on and wear it over to the United States, thus avoiding the payment of duty. The treasury department has instructed the collectors of customs to stop the practice, ordering the officers for smuggling goods across the border in case they refuse to pay duty.

## Home Visitors' Tickets.

CINCINNATI, Sept. 5.-As a natural sequel to the railroad policy which for years has given cheap transportation to parties desiring to visit the south and west to select homes, there is now inaugurated by the Big Four road what is called "home visitors' tickets," intended to carry back to settlers in the south and west to labor in homes in the central states. The tickets will be put on sale by connecting roads at one fare for the round trip September 22 from Colorado, Texas, Kansas, Missouri and other points to Indiana, Ohio and Michigan.

## A 34-Story Building.

CHICAGO, Sept. 5.-Plans for the Old Fellows temple, to be erected in this city, have been prepared. They provide for a building as high as the Washington monument. The entire ground space is but up to a height of fourteen stories. Above this the building extends six stories in the form of a square cross, the four wings at angles of the main building being left vacant. Above this is a tower, square structure, fourteen stories high, with an aggregate weight of 550 feet. The estimated cost is \$3,500,000. The ground space covered is 150,000 feet.

## A New Beet Bug.

SAN FRANCISCO, Sept. 5.-A new and annoying insect has recently made its appearance at Waukegan, where it has attacked beetles grown in that vicinity for the sugar factories. The new insect is of an unknown species, and is a source of mystery to scientists. It is feared that the ravages of this new pest will be serious, affecting the sugar beet industry of the coast, which is just beginning to assume large proportions.

## An Official Announcement.

WASHINGTON, Sept. 5.-Baron von Mumm of the German legation in this city, has sent the following telegram from New York to the German government: "I have the honor to inform you that restrictions placed upon importation of American pork, swine and sausages into Germany have been rescinded, provided such free pigs or hog products have been examined according to your law of March 23, and according to regulations of March 23 of this year, and are furnished with proper official certificates."

## Heavy Grain Shipments.

CHICAGO, Sept. 5.-Vessels were chartered here yesterday to carry 1,700,000 bushels of grain to Duluth. Not only were all the boats now in port taken by the grain shippers, but nearly all the fleet to arrive next week were also chartered in the past. Every vessel on the great lakes now tied down by contracts for the next week was called for and all the shippers were busy.

Rates were advanced to the basis of three cents on corn and three and a half on wheat. The rust was understood to be owing to the fact that the corn crop was not as large as last year's, and the wheat crop was not as good as last year's.

## A Circular from Chili.

PLAZA, Sept. 5.-A dispatch received to-day from the Chilean legation in this city from Santiago, Chile, says the provisional government of Chile has been constituted, and that it will send a circular letter to the powers and to the countries appearing disposed to recognize the present administration in Chile.

## NEWS BY VALPARAISO.

New York, Sept. 5.-The Chilean Valparaiso despatch says: "The stories of riot at Couquimbo were without foundation. Word was received from there to-day that the Congressional officials had taken possession of that city and Serena without any disturbance and that order has been maintained throughout."

Before the arrival of the new officials Colonel Corvalan, commanding the government forces in that section, and the Chilean chief of police of Couquimbo, Sr. Sanchez, went aboard the British warship Melbourne and asked Captain Parr the commander for protection. "I was readily granted."

The government troops at Couquimbo and Serena were disarmed as soon as the Congressionalists took charge and nearly all of them have gone to their homes.

The annual transport Aconcagua has been ordered to meet the ship bringing the arms and food guns ordered by the junta in Europe.

The German minister to Chile and the German admiral, commanding the German fleet at Valparaiso are at odds over the dispo-

sition of the boat, refugees who are in any way about the German cruiser Soledad. The minister ordered the admiral yesterday that he might be required to surrender to the Chilean authorities the boat. The admiral, however, refused to do so, and the boat is now in the harbor of Valparaiso and Captain Valparaiso, late captain of the torpedo submarine Ligny.

The admiral bluntly informed the minister that he would do no such thing unless specifically ordered to do so by the emperor or Chamber of Viceroy. The minister did not insist.

As soon as the conference had ended, the admiral sent a cable dispatch to the emperor, explaining the situation and announcing that he had no received orders to the contrary, the Soledad and refugees on board would proceed to-morrow to Montevideo, Peru, the nearest neutral port, where the people wanted by the junta would be landed.

Later in the day a report was received from Berlin approving the action of the admiral, and granting him permission to send the refugees to Montevideo. The Soledad will sail to-morrow early.

## FROM HARTLAND.

New York, Sept. 6.-The Chilean Santa Ana, Chile, special says: "The junta de Gobierno is busy engaged in reorganizing the public service. An order was issued to-day reorganizing the judges and court employees who were dismissed by Zaldívar. His employees were of course ousted. Other changes will be made as rapidly as possible, until the entire civil service is thoroughly in sympathy with the new government."

When the papers in the case of Zaldívar's minister of foreign affairs, Sr. Goyco, were examined to-day, a cable dispatch was found dated Sept. 10, 1891, informing him that the German government had decided to recognize the legitimate rights of the Congressionalists. This news Minister Goyco had taken care to suppress.

United States minister James Egan has received a letter from the state department at Washington, approving his action in endeavoring to bring about a cessation of hostilities in Chile.

An assured on the highest authority that the arms were shipped to Chile on the steamer Montevideo, is untrue. It also is a mistake to say that a single Lee rifle was in the hands of the Congressionalists. The rifles which it was alleged had been transferred from the junta to the Congressionalists were of this make, and the fact that some of them were used by General Pinto's army disproves that reference too.

ADDITIONAL NEWS FROM CHILE. WASHINGTON, Sept. 5.-Whether or not the Congressional junta has been recognized as the de facto government of Chile cannot be officially ascertained at the department of state as the acting secretary refuses to make any statement whatever on the subject. Nevertheless there is good reason for believing that, acting upon Minister Egan's information that the authority of the junta is supreme in Chile, he has, as already promised, been directed to open relations with them.

If there has been any question as to the proper treatment of refugees about Zaldívar's flag ship, the Baltimore-it has been settled by the admiral himself as appears by the following cablegram received by Secretary Tilden from him this afternoon:

VALPARAISO, Chile, Sept. 5, 1891.

The Baltimore left yesterday for Montevideo, taking away twenty refugees, who are not safe in Chile. No other way to reach neutral territory. The Baltimore will return without delay. Excellent surroundings.

## A Prizeworthy Work.

DENVER, Sept. 7.-The Rocky Mountain Sportsman's association are having active measures to prosecute a violation of the game laws of Colorado, especially where the hunters are using the same traps for the purpose of killing deer for the purpose of paying a cost of the work as being taken up in various parts of the state and are sent to C. N. Thompson, president of the association.

At present they are as follows: Lead, \$10.00; Silver, \$20.00; Gold, \$50.00; Platinum, \$100.00; and the prize for the best shot is \$1,000.00.

## Sad Intelligence.

LEADVILLE, Colo., Sept. 7.-C. C. Davis, of the Central Democrat, this morning received the sad intelligence of the death of his daughter, Edith, which occurred near Paris, France, yesterday. Mrs. Davis and her daughter have been spending several years abroad. Mr. Davis is grief-stricken.

## The Robbers Have Escaped.

FORT GARLAND, Colo., Sept. 7.-It is now generally conceded that the robbers who held up the train at Union City a week ago have entirely escaped. The posse that started from here have returned, bloodied and all, without capturing the desperadoes. It is believed that the robbers are now in the 300 mountains.

## Railroad Time Cut Down.

DENVER, Sept. 8.-The time between Denver and Chicago is to be again cut down. The Rock Island and Santa Fe have agreed to reduce its running time by two hours via its new route and announce that on Sunday next it will put a new schedule in force, which will be four hours shorter than the best time now being made. Instead of leaving Chicago at 8 p. m. it will depart at 10 p. m. and arrive in Denver at the same time as now. This change will probably be met by the Burlington.

## Allison's Great Speech.

CHEYENNE, Wyo., Sept. 8.-Senator W. B. Allison opened the Republican campaign in this city this afternoon in a three hours speech. He received the applause of a large audience that did not seem weary, although the speech was of unusual length. The tariff, free coinage, the prohibition law and Governor Boies' New York and Oregon campaign speeches were the subjects treated of by the senator.

## THE MEXICAN BILLS.

The McKinley bill, said, though not perfect or in all respects as it would have it, was the best tariff law ever enacted by congress and was proving to be a most beneficial law for the people.

The prohibitory law, he said, was enacted as a result of a non-partisan election, at which the people said, by 30,000 majority that they desired to try the experiment of prohibition. The law should remain and be respected and enforced, until the people by a similar election demand its repeal. The statement made by Governor Boies in his Cheyenne speech, that he would enforce the prohibition law, was a cause of more pauperism and misery to more homes than would the un-

restricted sale of alcoholic beverages in the same length of time.

The speaker said that a governor giving utterance to such words, there could be no hope for any law of the people.

restricted sale of alcoholic beverages in the same length of time.

The senator closed with an appeal for earnest and united Republican action, which would result in giving them a victory in the next election by a majority of 35,000.

## Prisoner Accepts the Sentencing.

DENVER, Sept. 8.-John McLeod, a prisoner, has accepted the sentencing of the court in the case of the robbery of the Santa Fe train.

It is a gratifying thing to be assured, by you that besides the sanction of your own action, you believe this action on the part of the court is a just majority of the people of Colorado.

## The Census Came Too Soon.

McGEE, Sept. 7.-Mr. George Griffin who gave birth to the census of the state of Colorado, yesterday with a quarter of a century ago.

## Statement of Circulation.

WASHINGTON, Sept. 4.-Secretary Foster in response to many inquiries from different sections of the country, has prepared a statement showing the amount of various kinds of money in circulation in the United States during the last year.

The amount of money in circulation in the United States in 1890 was \$1,000,000,000. The amount in circulation in 1891 was \$1,000,000,000.

Year	Amount in circulation	Per cent.
1890	\$1,000,000,000	100
1891	\$1,000,000,000	100
1892	\$1,000,000,000	100
1893	\$1,000,000,000	100
1894	\$1,000,000,000	100
1895	\$1,000,000,000	100
1896	\$1,000,000,000	100
1897	\$1,000,000,000	100
1898	\$1,000,000,000	100
1899	\$1,000,000,000	100
1900	\$1,000,000,000	100

The amount of money in circulation in the United States in 1890 was \$1,000,000,000. The amount in circulation in 1891 was \$1,000,000,000.

The amount of money in circulation in the United States in 1890 was \$1,000,000,000. The amount in circulation in 1891 was \$1,000,000,000.

The amount of money in circulation in the United States in 1890 was \$1,000,000,000. The amount in circulation in 1891 was \$1,000,000,000.

business houses of the city. Those, Gough, and out an immense foot representing the three departments of the business. In front was a complete candy making establishment in charge of Charles Schwabach. Then came the ice cream freezers in charge of John Duncan and a battery with Fred. Fuller making some candy looking cake. The products of each department, as fast as made, were distributed to the crowd, and a tremendous laughing mob of children besieged the wagon on all sides. Behind came the fire of Gough's fairy wagons.

The Broadway company sent some of their best looking fairy wagons; and S. C. Gough's grocery, the Colorado Oil Supply company, the Jeweler, E. J. O'Brien, the Enterprise meat market, E. J. Hogan, harness, M. D. Swisher, coach, A. L. Bainter, hair, etc.; Vornes Bros., clothing; Shields & Morley, groceries; M. J. Tencal, of Colorado City, furniture; R. C. J. Eysse, shoes and hosiery, were all represented by appropriate wagons and floats. Stars & this and six wagons out. In front came a heavy truck on which a frame had been constructed, upon which a big steer was crossed, and a crowd in sight of the crowd as the wagon moved on. Behind came the five fairy wagons of the firm.

The Colorado City Cable had a float with a complete printing office, and General DeLong had a float with a complete office. Little McLeod, D. Howard had a complete newspaper office on his wagon and the owners of the float were busy making the editorial staff and the printer's staff. The float was distributed as fast as made, and the crowd was a tremendous laughing mob of children.

Christian church was and is the basis of labor reforms. He referred to some of the reforms that had been wrought by the Knights of Labor, and said the church of Christ was really a great international brotherhood and advised them to join it. He referred to the attitude of the Knights on the silver question and gave their reasons for wanting free coinage, and closed by saying that the church of Christ was interested in solving the labor question and wanted their help.

Mayor Sprague then called for three cheers for the speakers. They were given with a will, and were followed by three for the mayor and three for the workingman as an abstract possibility. Mayor Sprague then gave the men who were about to attend their wives keep their money for them, and about seeing and holding those positions for which they best were fitted. While the band played an appropriate selection the large crowd, which had given close attention to the speaking for over an hour, quietly dispersed, and the formal celebration of Labor day was over.

## LITERARY NOTES.

There is now so considerable public interest in the many practical applications of electricity that wonder something that has come in the latter half of the Nineteenth century to play so important a part in our every-day life that a popular treatment of the subject, such as can be read by the every-day man, whether a scientist or not, is just at present doubly welcome. We are therefore pleased to see in the current issue of the Electrician, World, that Dr. Louis Bell, the editor of that journal, has begun a series of timely and important articles on the Elements of Practical Electricity, written in plain and simple language for beginners. The author's idea is, apparently, to brush aside, so far as possible, the conventional methods of discussing what many consider a complicated subject and to come directly to the substance of it by beginning in a practical way and continuing in that course to the very end. He has therefore commenced the subject by taking up the great discoveries of Volta and his contemporaries that really furnish the basis of modern electricity. Up to about the beginning of the present century there was no available way of getting electrical energy in sufficient quantity to utilize for anything more than small experiments. With the invention of the voltaic pile and the voltaic battery, early electricity, and, lastly, in Dr. Bell's first paper in The Electrician, World, of Sept. 5, the scientific world was put in possession of a source of electricity considerable enough to encourage practical applications. The author of these papers is evidently one who believes in experimental methods, for in his introduction to the statement of facts may be found carefully selected experiments with the working details clearly given, so that they can be readily performed, even by those of no previous experience or acquaintance with electrical matters. The articles are well illustrated and give promise of being a gap that has heretofore existed between popular and rather vague elementary books and more scientific and, unfortunately, mathematical treatises. A class of intelligent readers can follow the subject as Dr. Bell treats it, and doubtless many a young man will find these articles the starting point of his electrical education. The Electrician, World is the pioneer American journal of its class, and the largest in the world. The subscription is three dollars a year, which includes postage. Newsletters supply it at an expense of ten cents a week. The publishers are the W. J. Condon company, 26, 47-47 Times building, New York. The articles written by Dr. Bell will run for several months. Each subscriber now will have the series complete.

Rudyard Kipling's new novel, written in collaboration with Wolcott Baister for The Century, is entitled "The Nautica, a Tale of West and East." It is a story of America and India. The principal characters live in a "boomtown" Colorado town, where the story opens, but the scene shifts to the court of an Indian maharajah, waiting the hero and the heroine journey to meet with most varied experiences. The story will begin in the November Century.

Mrs. Burton Harrison, the author of "The Angonians," has written a new novel of New York life which The Century will print. It is said to deal with divorce.

The first announcements of G. P. Putnam's Sons for the fall season comprise "The Life of Thomas Paine," by M. C. Conway, author of "Dimitri," "Chapters of History," "Discourse in the Life and Papers of Edmund Randolph," Two volumes, E. V. Strate.

Mr. Conway has personally searched the records in Europe and America, and has obtained from these fresh light, not only on Paine, but on various eminent figures in American and European history with whom he was associated. A large amount of unpublished correspondence will be included. The Life and Correspondence of George Mason, or Virginia. Edited by J. E. Mason Rowland. With an introduction by General Fitzhugh Lee, and with portrait of Mason and facsimile of the Bill of Rights. The work will comprise two volumes.

"Mason's great labors may not be as well remembered in the public mind as those of some others of the same period, because he persistently declined public positions in the federal council, where his conspicuous talent would easily have been seen in the front rank of public knowledge and esteem. In the words of the students of his country's history, his name and fame occupy a place second to none. He was indeed the people's man in a people's government."—Extract from introduction by General Fitzhugh Lee.

Sir Philip Sidney and the Chivalry of England. By E. R. Fox-Bonnie, author of "The Life of John Locke," etc. (No. V in the Series of the National Series.)

The story of Sidney's mortal wound at Zutphen, where he was fighting in war's sympathy with Holland's protest against Spanish tyranny, and of his brave death is quite sufficient reason for his posterity to rank him among the heroes of the nation. His contemporaries placed him there by acclamation, with extraordinary appreciation of the brave and gentle qualities which graced the court and the battlefield.

Never will it give the prosperity more to climate or scenery than to other things combined. Never can any one city or county prove a claim to it. It is a treasure and resource. Should the den of the promoters of the abuse be corrected, King City, with its order, its beauty, its resources, should be a model to the world. It is a treasure and resource. Should the den of the promoters of the abuse be corrected, King City, with its order, its beauty, its resources, should be a model to the world.
